Port Side View in Albert Dock

### LIVERPOOL

After being gone for three years from our home port of Liverpool, the ship has had no problem picking up where she had left off. We've already had the opportunities to partner with different churches, host youth groups and open boats.

Fire Breathing Outreach

### LONDON GATHERING

YWAM's Forever Team hosted the most recent DTS gathering in east London. We were joined by most of

the different Discipleship Training Schools in England, Wales, and a couple Schools of Evangelism from England and Norway. We had one week full of a variety of outreaches and prayer walks to prepare the way for the Olympics. The students received different teachings on

Graffiti Outreach

evangelism from Yan Nichols, Connie Taylor, and Carl Tinnion. Along with a variety of different outreaches that had an impact on the community, it was encouraging to be around the many different YWAM schools. Good friends were made and our own DTS became motivated towards blessing other teams. They took on extra work duties, and found other practical ways of helping out.

It was a privilege serving with them for that week.

Creative Outreaches

### QUICK STORY FROM LIVERPOOL

“One night we were walking along Bold Street when we came across two homeless ladies who were asking for money. We struck up a conversation regarding faith, their lives and how they ended up in their situation. We ended up buying them some dinner and they accepted our offer to pray for them, which really encouraged them. One of the women started singing a song from Grease and we happily sang along. Through this we realised that not only were we able to bless them but they were also a blessing to us as they were so joyful despite their circumstance.” - Chelsea Smit, Bluewater DTS Trainee

Reconciliation Outreach by Claire Gordy
